Shooting Australia Anti-doping Education Plan

Introduction

Education is key to protecting the health and wellbeing of athletes and upholding the integrity of Australian sport. This Education Plan outlines the required and recommended education interventions for all members of Shooting Australia as per your Anti-Doping policy and the World Anti-Doping Code International Standard for Education (ISE).

Plan Development

Under the ISE, Sport Integrity Australia is required to ensure specific cohorts receive anti-doping education - either via online or face-to-face education. A key intent of the ISE is that athletes should receive education prior to being tested.

To satisfy these requirements, the following cohorts are required to receive anti-doping education:

- Any athletes included in Registered, National or Domestic Testing Pools
- Any Shooting Australia selected athletes and appointed support personnel* competing or involved in National and International events, championships or competitions
- Any athletes and support personnel* competing or involved in leagues subject to User Pay testing
- Any athletes and support personnel* returning from an anti-doping rule violation sanction

Other groups outside these categories are recommended to receive anti-doping education. The type of education for each cohort is outlined in following attachments:

Attachment A – Required and Recommended Education - Outlines the anti-doping education requirements and recommendations for Shooting Australia members at each level including those delivered by Shooting Australia.

Attachment B - Shooting Australia Delivered Education - allows for additional Shooting Australia specific requirements not listed in Attachment A to be included. This is not compulsory to complete.

Commitment

Sport Integrity Australia will provide:

- Government-funded or user pay face to face/virtual education sessions
- Access to a range of free online anti-doping education materials, targeted to each level of sport
- A suite of resources to promote education, including social media tiles, posters, videos and digital resources
- Regular communication to Shooting Australia to support Shooting Australia in implementing this plan.
- Where practical, assistance with eLearning completion reports for Shooting Australia.

Shooting Australia will be responsible for:

- Mandating the completion of education requirements as outlined in **Attachment A**.
- Promoting recommended education interventions as outlined in **Attachment A**, by providing resources to State Sporting Organisations and Clubs, and promoting anti-doping education in communication materials.
- Coordinating face to face education sessions with Sport Integrity Australia, including providing adequate facilities and support.

*Support Personnel includes any coach, trainer, manager, agent, team staff, official, medical, paramedical personnel, parent or any Other Person working with, treating or assisting an Athlete participating in or preparing for sports Competition. See articles 1.3.1.1 and 1.3.1.2 of anti-doping policy for further information.

Education Plan Compliance Model

The following criteria will be used when assessing education implementation for the purpose of ensuring compliance with the Australian National Anti-Doping Policy (Articles 12.1, 12.2, 12.4 and 17) and the Sport Investment Agreement (clause 6d).

- Endorsing the education plan via email confirmation
- Education requirements are communicated to specified athlete and support personnel and monitored through online completion records of eLearning courses and attendance at face to face or virtual education sessions (where relevant)
- Anti-doping resources are shared with State Sporting Organisations,
- Shooting Australia communicates effectively and efficiently with Sport Integrity Australia to implement this plan
- Shooting Australia promotes education across all athlete levels – as evidenced via emails, newsletters, social media posts, and event packs etc
- Shooting Australia implements an anti-doping tab on their website with policy and links to education and other resources.

For the purpose of the Sport Integrity Australia Compliance Model, Shooting Australia may be asked to provide evidence of how they have implemented this plan at various levels (e.g. by providing emails to state organisations, social media posts, newsletters). The Plan will be reviewed annually to assess implementation and compliance, allow for changes in response to any evolving threats, and to incorporate new education resources developed by Sport Integrity Australia.

Conclusion

This Education Plan is a partnership between Sport Integrity Australia, who will support this plan through the provision of education resources and interventions, and Shooting Australia, who is responsible for implementing this plan within their sport. Through this plan, together we aim to reduce the risk of anti-doping rule violations, either deliberate or inadvertent, protect the health and wellbeing of Shooting Australia athletes, and uphold the integrity of Shooting Australia.

Acceptance of this education plan can be by way of email confirmation.
