\*Air Pistol Scores – competitors must note that we will be using Sort Quantum SQ10 targets for the air pistol matches. These targets operate differently to the SIUS type electronic targets (e.g. Meyton, Megalink etc). As a result it is NOT POSSIBLE to calculate scores or resolve score protests related to the value of a shot using the current ISSF procedures. Protests regarding the value of a shot will only be resolved if it can be shown that there is an error with the target hardware (such as a damaged face plate).
